SLOW THE SPREAD OF COVID-19

cdc.gov/coronavirus

Wear a mask
in public spaces

Stay at least 6 feet
from other people

Frequently wash
your hands

DON'T FORGET THE BASICS

1. Wash your hands often

Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing. Avoid touching your eyes, nose, and mouth with unwashed hands.

2. Avoid close contact

Put 6 feet of distance between yourself and people who don't live in your household. Remember that some people without symptoms may be able to spread virus. Stay at least 6 feet (about 2 arms' length) from other people. Keeping distance from others is especially important for people who are at higher risk of getting very sick.

3. Cover your mouth and nose with a mask when around others

You could spread COVID-19 to others even if you do not feel sick. The mask is meant to protect other people in case you are infected. Everyone should wear a mask in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.

CENTRAL WINDS TRAILHEAD

On Thursday, October 29, Mayor Charles Lacey, Deputy Mayor Ted Johnson, and Commissioner Geoff Kendrick were joined by special guest, State Representative David Smith to break ground for the new Central Winds Park Trailhead for the Cross Seminole Trail. The new trailhead will feature restrooms, water foundations, and a bike rack.

This project is part of the City's Perk up Parks Initiative and is developed with assistance provided by the Florida Department of Environmental Protection through the Recreational Trails Program.

HAPPY THANKSGIVING!

HAPPY THANKSGIVING

Thank you for being residents of this amazing City and supporting us by reading this newsletter each month. While not all staff members lives in the City, we certainly all love Winter Springs and are grateful to be able to come to work and serve you each and every day. From the sincerest place, we wish you and your family a very happy Thanksgiving!

STORMWATER POLLUTION

When precipitation from rain flows over the ground, stormwater runoff forms. Impervious surfaces like driveways, sidewalks, and streets prevent stormwater from naturally soaking into the ground.

Stormwater can pick up debris, chemicals, dirt, and other pollutants and flow into a storm sewer system or directly to a lake, creek, or wetland. Anything that enters a storm sewer system is discharged untreated into the waterbodies we use for swimming, fishing, and providing drinking water.

Polluted stormwater runoff can have many adverse effects on plants, fish, animals, and people.
