City of Winter Springs statement on draft of Seminole County audit

WINTER SPRINGS, Fla.- Today, Seminole County Inspector General Bill Carroll's office released the draft of an audit of the City of Winter Springs regarding the revenues and expenses associated with the 1 cent sales tax allocations given to the City.

Throughout this process, the City of Winter Springs Finance department and numerous City staff have provided auditors with all requested documentation and information, all while working hard every day to serve the citizens of Winter Springs.

We appreciate residents' patience and understanding as we take time to review the contents of the Inspector General's audit and take the opportunity to clarify some of the findings contained in the draft.
