## **City of Winter Springs announces completion of Shore Road emergency repairs**

*The crossing at Gee Creek suffered significant damage during Hurricane Ian.*

**WINTER SPRINGS, Fla.** — Today, the City of Winter Springs announced the completion of emergency road repairs along Shore Road at Gee Creek.

In September of 2022, the crossing at Gee Creek suffered significant damage when Hurricane Ian caused severe flooding of the creek, which washed out parts of the roadway, making it impassable.

On February 27, 2023, the Winter Springs City Commission approved emergency repairs to [Shore Road](#) during its regular meeting, with work on the roadway beginning in early March.

On March 28, 2023, construction crews put the finishing touches on the project with the installation of a new sidewalk, handrails, curb, and asphalt.

The \$198,000 project was made possible with funds from the one-cent infrastructure sales tax and FEMA.

With construction on Shore Road complete, the City will now turn its attention to emergency repairs to Wade Street, which were approved at the March 27, 2023, Commission meeting.

Information on the Wade Street project can be found [here](#).
