WINTER SPRINGS, Fla.– The City of Winter Springs has launched a new emergency alert system to keep residents safe and informed during emergencies and other critical events.

The new system, Alert Winter Springs, powered by the Everbridge emergency notification system, will notify residents about a range of events, including severe weather, floods, road closures, and other emergencies.

Residents can choose to receive messages on their preferred devices ensuring they have immediate access to potentially life-saving information.

Visit the Alert Winter Springs Everbridge Portal to sign up for emergency notifications or update your account. This will ensure you stay informed when critical situations arise.

By creating an Everbridge account, residents can customize their profiles and adjust their notification preferences, such as whether they receive phone calls, text messages, or emails.

With the start of hurricane season approaching, the City of Winter Springs encourages all residents to sign up for Alert Winter Springs as soon as possible to ensure they continue receiving essential emergency alerts.
