*Thank

Many of you may know about the City's Little Free Library located at Trotwood Park, which was a suggestion by Commissioner Joanne M. Krebs. So, at the July 25<sup>th</sup> City Commission meeting, Commissioner Krebs provided a personal check to the City of Winter Springs to fully fund a second Little Free Library.

On behalf of so many of us, a sincere thank you goes out to Commissioner Joanne M. Krebs for this most generous contribution.

# MOSQUITO CONTROL PROGRAM

## Protect Yourself From Mosquito Bites and Disease

### Eliminate Mosquito Breeding Areas Around Your Home

The Seminole County Mosquito Control Program is asking for your help to prevent the following diseases transmitted by mosquitoes:

**Zika Virus (2016) \* Chikungunya (2013) \* Dengue Fever  
\* West Nile Virus \* Eastern Equine Encephalitis**

You can help by eliminating standing water from any containers, and by protecting yourself and your family from mosquito bites. See below for more information.

### Help Prevent Mosquito Diseases

#### Drain and Cover

**DRAIN** standing water from any container where sprinkler or rainwater has collected. See the picture below to find places where water may collect around the outside of your home.

**COVER** your bare skin and clothing with repellent if you must be outside when mosquitoes are most active during the hours of dusk and dawn. Several disease-carrying mosquitoes are daytime biters and usually do not fly far from the containers where they spend their immature life stages. Wear shoes, socks, long pants, and long sleeves.

Always use repellents according to the label. Repellents with DEET, Picaridin, Oil of Lemon Eucalyptus, and IR3535 are effective. Use mosquito netting to protect children younger than 2 months. Using repellents that are combined with sunscreen is not recommended. Apply sunscreen first, then apply repellent to make sure that each product works as intended.

### Mosquito Facts & Biology

Did you know that mosquitoes must have water to develop, that only female mosquitoes bite (take a blood meal), and can live for several weeks and lay hundreds of eggs? Check out the mosquito life cycle below to learn more about these insects.

1. Eggs are laid on water, on the side of containers, or on moist soil that may flood.
2. Larvae hatch from the eggs and live, feed, and grow in the water.
3. Larvae become pupae, then after 2 or 3 days adult mosquitoes emerge from the pupae.
4. Adult female mosquitoes fly off in search of a blood meal, lay eggs a few days later, and then the cycle begins again.

## MOSQUITO BREEDING AREAS FOUND ON YOUR PROPERTY

### OTHER TIPS TO PREVENT MOSQUITOES

- Repair screening on windows, doors, porches & patios.
- Keep gutters clear so they will drain properly.
- Check & empty:
  - Children's toys
  - Trash cans & lids
  - Untreated swimming pools
  - Uncovered boats/watercrafts that are not draining water
- Change water in birdbaths & flush bromeliads once or twice a week.
- Do not allow water to accumulate in flower pots or dishes for more than 2 days.
- Check around faucets & air conditioner units, repair leaks & eliminate puddles that remain for several days.
- Fill tree holes & rotten tree stumps with spray foam insulation.
- Irrigate lawns & gardens carefully to prevent water from standing for several days.

# THE POLICE REPORT

## It's Back to School Time!

School is back in session and that means more homework. Even if we won't be returning to school, we as a community have a responsibility to maintain a high level of awareness and safety regarding the children traveling to and from school.

### Kids

1. If you walk to school, use the sidewalks and cross with a crossing guard. Walk in a group with your friends and avoid walking alone. Be aware of vehicles and never ever get into a car with a stranger. Walk straight to school and go straight home.
2. If you ride the bus, use your designated bus stop. While walking to the bus stop, use sidewalks and cross with crossing guards. Walk with your friends and while waiting for the bus, stay out of the roadway. Be respectful to the property at the location of your bus stop.
3. If you ride your bike to school, always wear a helmet. Use the sidewalks but be courteous of pedestrians. Avoid using the roadway, but if you must, know the rules of the road. When crossing the road, walk your bike across, never ride. If you have to ride in the winter when it may be darker in the morning, make sure your clothing is reflective or bright and light your bike accordingly.

### Parents

1. Ensure your child walks the same route to school every day. Have them walk with other children so as to not be alone.
2. Help your child to get to the bus on time. When you must hurry, safety is sometimes forgotten.
3. If your child rides a bike to school make sure they wear their helmet, are visible to vehicles and know the rules of the road.

# THE POLICE REPORT (CONTINUED)

## Drivers

1. Remember that with back to school there will be increased traffic on the roadway. Make sure to cater your schedule to accommodate the increase and ease your frustrations.
2. With the increased traffic there will also be increased children on or near the roadway. Please drive with caution in the presence of children.
3. Maintain a sense of vigilance in the presence of children. Many crimes against children have been interrupted or prevented due to vigilant citizens. If you see something, say something.

It is in the best interest of our community to take responsibility for our safety and the safety of our children. We at the Winter Springs Police Department want to provide our community with the right tools and information to prevent our citizens from being victimized from accident or crime. As we all do our part, we can ensure that Winter Springs remains one of the finest cities in Florida.

If you feel uncomfortable about calling the police department, you can report suspicious activity anonymously to Crimeline at 1-800-423-TIPS or visit their webpage at [www.crimeline.org](http://www.crimeline.org).

**Help the Winter Springs Police Department. Be a crime stopper not a victim. Lock your car and report suspicious activity. Deny criminals the opportunity to commit crime. Only together can the Winter Springs Police Department and the citizens form the 360 degree shield which protects us all.**

## Opportunity Site:

• Winter Springs offers excellent opportunities for the development of high technology industries. Situated on the eastern edge of the City, Seminole Way is a strategic economic development initiative focused on attracting high value jobs and businesses to Seminole County. The State Road 417 (Central Florida Greenway) corridor defines the boundaries of the Seminole Way district, spanning the length of Seminole County and connecting to both Orange County's "Innovation Way" and the "Medical City" located at Lake Nona. The City has targeted the district for technology industry development complemented by commercial and retail establishments. This district is expected to become a premier employment center with professional and high tech office buildings, conference facilities, and hotel rooms. This opportunity site is comprised of 26 potential sites with over 378 acres. One of the key features of this opportunity site is the ease of assemblage: it offers the largest potential for consolidation of vacant developable land within the City under the ownership of only three land owners.
