- The Bidder agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of its contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.
- The Bidder further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to part ii, subpart d of the Executive Order. In addition, the Bidder agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Bidder under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the department of justice for appropriate legal proceedings.

All Public Records stored electronically must be provided to the CITY, upon request from the CITY's custodian of public records, in a format that is compatible with the information technology of the CITY. If Bidder does not comply with a Public Records request, or does not comply with a Public Records request within a reasonable

amount of time, the CITY may pursue any and all remedies available in law or equity including, but not limited to, specific performance. The provisions of this section only apply to those tasks in which Bidder is acting on behalf of the CITY.

286, Florida Statutes (commonly referred to as the “Sunshine Laws”). Disclosure of information marked according to the requirements of this section in response to a public records request will be determined by the CITY in its sole and absolute discretion and in accordance with the Florida laws, rules, and regulations. Bids may be withdrawn at any time prior to the deadline. Withdrawal requests shall be made in writing and must be received by the CITY’s Procurement Manager before the time and date stated or as amended for the Bid Opening. APPENDIX B – PROJECT SPECIFICATIONS
(Includes Attachments B-1 & B-2)

1. SCOPE

The City of Winter Springs, Florida (CITY) is seeking to obtain the services of a qualified vendor to excavate sediment and accumulated debris from nine (9) creek roadway crossing locations throughout the City of Winter Springs. The roadway crossings are located along Sheoah Creek, Gee Creek, Howell Creek, and Bear Creek. This project is intended to restore functionality and aid in the unobstructed conveyance of stormwater. Refer to **Table 1** below for the list of roadway crossings and corresponding creek locations included in this contract.

2. SEDIMENT REMOVAL LOCATIONS

TABLE 1

No.	Roadway Crossing	Creek
1	Sheoah Boulevard	Sheoah Creek
2	Shepard Road	Sheoah Creek
3	South Edgemon Avenue	Gee Creek
4	South Moss Road	Gee Creek
5	Hayes Road	Gee Creek
6	Northern Way (South)	Howell Creek
7	Winter Springs Boulevard	Howell Creek
8	Northern Way (North)	Howell Creek
9	Winter Springs Boulevard	Bear Creek

Following Hurricanes Ian and Nicole, the creek roadway crossings were inspected throughout the CITY to determine the hurricane impacts. Based on the site inspections, multiple sediment deposits were identified at roadway crossing / bridge locations throughout the CITY. The sediment deposits are a result of erosion that occurred upstream of the bridge location and washed downstream. These sediment deposits are reducing the hydraulic capacity of the creeks, culverts, and bridges.

For each location shown on the overall project site Index Figure, the sediment shall be removed in accordance with the project details and construction sequence as described in Detail Sheet Numbers 1 and 2 (refer to **Attachment B-1**). Site specific figures detailing the approximate extent of sediment deposits within the creek channels and under the bridges and culverts are identified in Sediment Removal Figures for Location Numbers 1 through 9 (refer to **Attachment B-2**).

3. SUMMARY

The project is intended to restore the functionality of creek areas, to aid in conveyance of stormwater runoff, and reduce the potential flooding of adjacent properties. The work will consist of removal of sediment deposits and accumulated debris within the creeks.

4. ACCESS

Access locations are generally shown on the Exhibits for each creek. Prior to the beginning of work, Contractor and CITY Staff will visit each access point. Contractor may suggest an alternate route or access point, but written approval by the CITY Project Manager along with adequate real property rights and/or completed right-of-entry agreements may be required.

5. LIMITS OF WORK

Limits of the work areas are generally defined in the Exhibits for each roadway / bridge crossing. The project shall consist of the removal and disposal of sediment from nine (9) roadway crossing locations shown in Exhibit B. Work must be completed no later than 60 days from notice to proceed. It is worth noting that the project is tied to grant funding; therefore, the project construction must be performed as quickly and efficiently as possible to meet the grant schedule requirements.

Unless previously approved by the City Project Manager, all work is to be completed Monday through Friday. No work is to be performed between the hours of 10:00 PM and 6:00 AM per the City Ordinance for noise restrictions. Each site shall have a minimum of one on-site point of contact.

6. SEDIMENT REMOVAL

- a. All accumulated sediment mounds, downed trees, brush, limbs, tops, vines, and other accumulated woody vegetative materials, or other accumulated trash within the stream banks shall be removed.
- b. All work shall be performed in accordance with the provided Figures and Detail Sheets.
- c. All work performed shall take extra care that active vegetation in the canopy over the creek and its banks, along the littoral shelf and the littoral/riparian interface, and the bottom habitat are not harmed. Sediment deposits and associated debris shall be removed in such a manner as to avoid damage to trees and existing structures and with due regard for the safety of persons and property. Impacts to adjacent properties shall be minimized using Best Management Practices as necessary, including but not limited to:
 - 1) the use of mats under vehicles or heavy equipment; and
 - 2) re-grading any rutting to natural contours, such that temporary impacts would readily re-recruit and return to un-impacted conditions within one growing season. Unless otherwise approved by the CITY Project Manager, work on all sites shall progress from downstream to upstream.
- d. The water level in the creeks will fluctuate up and down due to rainfall events. The contractor shall track all potential weather systems. Should a large storm or hurricane be predicted for the project area, the contractor shall remove all equipment or temporary structures from the project area, all temporary sediment control devices, and any element that is blocking stormwater conveyance within the creek and from surrounding areas to the creek. The contractor shall stabilize all channel banks and take all reasonable measures to allow all stormwater conveyance and prevent erosion and sediment transport during the storm event.

7. EQUIPMENT

- a. Disturbance of the channel bottom and banks, and equipment access areas shall be held to the minimum necessary to allow the construction equipment to remove the sediment deposits. Heavy equipment working on wet soil conditions must operate

from mats or use other measures as approved by the CITY Project Manager to minimize rutting or soil disturbance.

- b. Boats, barges, and wheeled and/or tracked vehicles for removing, loading and hauling the sediment and debris off-site will be allowed at the specified locations as approved by the CITY Project Manager.
- c. Access for mechanized equipment shall be limited to one side of the channel. Access to the channel shall generally be perpendicular to the channel with precautions taken to protect private property as well as mast producing and canopy trees.
- d. Hydraulic excavators, if used, shall be low ground pressure (LGP) machines and be equipped with a stationary or mechanical thumb attachment or have a grapple. The use of rubber-tired skidders will not be allowed without prior written approval of the CITY Project Manager. When the use of skidders is allowed, they shall be equipped with low ground pressure and high flotation tires.

8. DISPOSAL

- a. The Contractor shall be responsible for the proper disposal of all materials removed. All sediment and accumulated debris shall be hauled off-site and shall be taken to the disposal site at any County Landfill, Class III or higher. Alternate landfills for disposal proposed by the Contractor must be pre-approved by the CITY Project Manager.
- b. Sediment removed from the creek shall not be placed in or adjacent to other creek tributaries, side ditches, floodplains nor any other defined water entrances to the watercourse being cleaned. Nor is it permissible to place sediment or debris on the property of others, or to move sediment upstream or downstream of improved areas in an effort to avoid hauling off-site.
- c. Sediment and debris shall not be placed on nature or hiking trails, sewer lines, highways, railroad rights-of-way, or any other improved areas. The storing and stockpiling of material shall only take place if authorized by the CITY Project Manager and must take place only in uplands and City-owned property. If prior authorization is granted, stockpiles shall be placed in such a manner to prevent potential movement of the materials back into the creek.

- d. All foreign debris such as building materials and manufactured items (stoves, refrigerators, washing machines, other household goods, cars, tin, building material, etc.) found within the limits of the sediment removal areas shall be hauled to the off-site disposal area(s). Unless otherwise specifically approved by the receiving County Landfill, all debris will have to be separated by woody, construction and demolition, "white goods", and tires prior to placement in the landfill.
- e. Where petroleum or gas tanks, pesticide containers or other hazardous materials are found within the limits of sediment removal, the contractor shall note the location of the tank, container, or material and notify the CITY Project Manager. The Contractor shall avoid disturbance or damage to the tank, container, or materials.

9. ENVIRONMENTAL REQUIREMENTS

- a. No activity shall adversely affect any species which is endangered, threatened, or of special concern, as listed in Rules 68A-27.003, 68A-27.005, F.A.C.
- b. Disturbance of the creek banks and the creek bottom will be held to the minimum necessary to remove the sediment deposits.
- c. Where the use of heavy equipment is allowed, equipment shall operate adjacent to the creek and not within the stream unless prior approval is granted by the CITY Project Manager. Crossing a creek with equipment to gain access to the opposite bank is only allowed with the specific approval of the CITY Project Manager.
- d. Equipment shall be maintained to prevent fuel, oil, and lubricant spills. Refueling, repairs, and lubrication will be performed at safe distances from the creek. Should fuel leaks, oil leaks or hydraulic pipe ruptures occur during construction, the Contractor's operators shall immediately remove the equipment to a safe area and take prompt action to minimize damage and safeguard the site. The Contractor or his Superintendent shall immediately report the spill or discharge to the CITY; and the requirements of the Florida Statute Chapter 376 Pollution Discharge Prevention and Removal will be followed. The Contractor shall provide tanks or barrels to be used for off-site disposal of chemical pollutants such as drained lubricating or transmission oils, greases, etc. produced as a by-product of this work.
- e. Washing, fueling or servicing of equipment shall be avoided where spillage or wash water can enter the watercourse.

10. SPECIAL REQUIREMENTS

- a. The CITY shall have the right to temporarily suspend the Contract due to unforeseen weather conditions or any other conditions that in the sole opinion of the CITY may cause the work to not proceed in an expeditious or safe manner as determined by the CITY.
- b. The Contractor shall submit to the CITY Project Manager for review and approval prior to construction, a list of equipment and construction schedule showing the sequence of all the work to be performed. Any changes to the schedule after the start of construction will require a minimum of 24-hour notification and prior approval by the CITY Project Manager.
- c. The Contractor shall exercise care while working in the areas of existing lawns, roads, structures, utilities, and other improvements. The Contractor shall be responsible for the prompt repair or replacement of any such improvements damaged by his/her operations.
- d. The contractor shall be responsible for repairing any damage(s) or defect(s) not documented as the condition that existed prior to construction. In other words, if the area recorded / photographed is not clear with regard to existing defects, faults, cracks or other deficiencies, then the City's decision shall be final with regard to a determination and the Contractor will be obligated to repair the defect / deficiency at no additional cost to the City or the City will repair such defect and the contract amount adjusted accordingly.

Where applicable, back and/or side yard areas of residential homes, within the Contractor's work area shall also be recorded. Houses and buildings shall be identified visually by house or building address in such manner that the progress of the taping and the proposed system may be located by reference to the houses and buildings.

A cumulative index correlating the various segments of video coverage to the corresponding video files and photographs shall be supplied to the City. This index shall identify each segment of video by location, video counter number, viewing side, point starting from, traveling direction, and ending point.

The Contractor shall also submit electronic digital photography depicting the project areas of proposed work and shall be identified by street and creek.

Video recordings may also be outside the limits of the Contractor's work. This work, if required, will be directed by City staff.

The rate of travel for video recording shall be determined by the number, size, and complexity of the surface and other site features to be documented. At no time shall the rate of travel exceed 60 feet per minute. Forward motion of the camera shall be halted when viewing objects or structures outside the limits of the street or easement being documented.

The videographer shall pan and zoom in and out at a reasonable rate so as to sufficiently control the clarity of object being viewed and the video shall have the capability to transfer individual frames of video electronically into digital photographs and/or hard copy prints.

At no time will the Contractor be allowed to use any electrical circuits within a building on private properties.

All video recordings shall be performed during regular business hours (9:00 am to 5:00 pm), unless otherwise approved by the City. No video recording shall be performed if the weather is unacceptable, such as rain, fog, or elongated shadows that distort perception and tend to prevent clear resolution or when more than 10% of the ground area is covered with standing water.

Additionally, video and photographic documentation of post-construction conditions shall mimic the video and photographs that were taken during pre-construction in order to provide the City with documentation that all improvements have been constructed and all surface features have been restored to pre-construction conditions.

All video files will become the permanent property of the City.

Payment for the videos shall be made on a Lump Sum basis and shall be made when post construction videos and photographs have been reviewed and approved.

Payment shall be made under:

Item No. 9999-1 – Pre- and Post- Construction Video and Photographs – Per Lump Sum (LS).

Bond No. _____

BY THIS PERFORMANCE BOND, We _____, as Principal, whose address is _____ and telephone number is _____ and _____, as

Surety, whose address is _____ and telephone number is _____ are bound to the City of Winter Springs, a Florida municipal corporation, as OWNER, whose address is 1126 E. State Road 434, Winter Springs, Florida 32708 and telephone number is 407-327-1800, in the initial sum of \$ _____ (110% of Contract Price), or such greater amount as the Contract may be adjusted from time to time in accordance with the Contract between the Principal and OWNER) (the "Penal Sum").

WHEREAS, the Principal has executed a contract with the OWNER, dated _____, for the Creek Sediment Removal project in the City of Winter Springs, Seminole County, Florida (the "Project"); and

WHEREAS, the OWNER has required the Principal to furnish a performance bond in accordance with law and as a condition of executing the Contract with Principal; and

WHEREAS, this bond is being entered into to satisfy the requirements of Section 255.05(1), Florida Statutes and the Contract referenced above, as the same may be amended, and additionally, to provide common law rights more expansive than as required by statute.

NOW THEREFORE, the Surety and the Principal, both joint and severally, and for themselves, their heirs, administrators, executors, successors and assigns agree as follows:

1. CONTRACT INCORPORATED; SURETY AND PRINCIPAL BOUND FOR FULL PERFORMANCE. The Contract is incorporated by reference and made a part of this bond. The Surety and the Principal are bound for the full performance of the Contract including without exception all of the Contract Documents (as defined in the Contract) and all of their terms and conditions, both express and implied. Without limiting the Principal's and Surety's obligations under the Contract and this bond, the Principal and Surety agree:

- A. Promptly and faithfully perform their duties and all the covenants, terms, conditions, and obligations under the Contract including, but not limited to the insurance provisions, guaranty period and the warranty provisions, in the time and manner prescribed in the Agreement, and
- B. Pay OWNER all losses, damages, delay damages (liquidated or actual), expenses, costs and attorneys' fees under sections 627.428 or 627.756, Florida Statutes, including costs and attorney's fees on appeal that OWNER sustains resulting directly or indirectly from any breach or default by Principal under the Contract, and
- C. Satisfy all claims and demands incurred under the Contract, and fully indemnify and hold harmless the OWNER from all costs and damages which it may suffer by reason or failure to do so.

2. OWNER'S AFFIDAVIT OF CONTRACTOR BREACH OR DEFAULT. If the OWNER shall provide to Surety the written affidavit of the OWNER stating that the Principal is in breach or default of the Contract, and that such breach or default remains uncured by the Principal, then upon delivery of such affidavit to the Surety in the method for providing notices as set forth in Paragraph 7 below, Surety must promptly notify the OWNER in writing which action it will take as permitted in Paragraph 3.

3. SURETY'S OBLIGATION UPON DELIVERY OF OWNER'S AFFIDAVIT OF CONTRACTOR'S BREACH OR DEFAULT. Upon the delivery of the OWNER's affidavit of breach or default by the Principal as provided in Paragraph 2 above, the Surety may promptly remedy the breach or default or must, within ten (10) days, proceed to take one of the following courses of action:

- A. **Proceed Itself.** Complete performance of the Contract including correction of defective and nonconforming Work through its own CONTRACTORS or employees, approved as being acceptable to the OWNER, in the OWNER's sole discretion, provided, however, that OWNER's discretion in approving the Surety's CONTRACTOR will not be unreasonably withheld as to any CONTRACTOR who would have qualified to offer a proposal on the Contract and is not affiliated in any way with the Principal. During this performance by the Surety, the OWNER will pay the Surety from its own funds only those sums as would have been due and payable to the Principal under the Contract as and when they would have been due and payable to the Principal in the absence of the breach or default not to exceed the amount of the remaining Contract balance less any sums due the OWNER under the Contract. During this performance by Surety, any payment bond required under the Contract must remain in full force and effect; or
- B. **Tender a completing CONTRACTOR acceptable to OWNER.** Tender a CONTRACTOR, together with a contract for fulfillment and completion of the Contract executed by the completing CONTRACTOR, to the OWNER for the OWNER's execution. OWNER's discretion to approve Surety's completing CONTRACTOR will not be unreasonably withheld as to any CONTRACTOR who would have qualified to offer a proposal on the contract and is not affiliated with the Principal. OWNER's discretion to approve CONTRACTOR as the completing CONTRACTOR and to approve the tendered contract shall be in OWNER's sole and absolute discretion. Upon execution by the OWNER of the contract for fulfillment and completion of the Contract, the completing CONTRACTOR must furnish to the OWNER a performance bond and a separate payment bond, each in the form of those bonds previously furnished to the OWNER for the Project by the Principal. Each such bond must be in the Penal Sum of the full cost to complete the Contract. The OWNER will pay the completing CONTRACTOR from its own funds only those sums as would have been due and payable to the Principal under the Contract as and when they would have been due and payable to the Principal in the absence of the breach or default not to exceed the amount of the remaining Contract balance less any sums due the OWNER under the Contract. To the extent that the OWNER is obligated to pay the completing CONTRACTOR sums which would not have been due and payable to CONTRACTOR under the Contract (any sums in excess of the then remaining Contract balance less any sums due the OWNER under the Contract), the Surety must pay the OWNER the full amount of those sums at the time the completing CONTRACTOR tenders an invoice to the OWNER so that the OWNER can utilize those sums in making timely payment to the completing CONTRACTOR; or
- C. **Tender the Full Penal Sum.** Tender to the OWNER the full Penal Sum of the performance bond. The OWNER will refund to the Surety without interest any unused portion not spent by the OWNER procuring and paying a completing CONTRACTOR or completing the Contract itself, plus the cost allowed under Section 4, after completion of the contract for fulfillment and completion of the Contract and the expiration of any applicable warranties; or
- D. **Other Acts.** Take any other acts mutually agreed upon in writing by the OWNER and the Surety.
- E. **IT SHALL BE NO DEFENSE TO SURETY'S OBLIGATION TO UNDERTAKE ONE OF THE PRECEDING COURSES OF ACTION THAT THE PRINCIPAL CONTENDS THAT IT IS NOT IN BREACH OR DEFAULT OF THE CONTRACT, OR THAT THE NOTICE OF BREACH OR DEFAULT WAS DEFECTIVE, OR THAT THE PRINCIPAL HAS RAISED ANY OTHER CLAIM OF DEFENSE OR OFFSET, PROVIDED ONLY THAT THE SURETY HAS RECEIVED THE AFFIDAVIT OF THE OWNER AS SPECIFIED IN PARAGRAPH 2.**
3. **SURETY'S ADDITIONAL OBLIGATIONS.** In addition to those duties set forth herein above, the Surety must promptly pay the OWNER (i) all losses, costs and expenses resulting from the Principal's breach(es) or default(s), including, without limitation, fees (including attorney's fees pursuant to sections 627.428 or 627.756, Florida Statutes and related costs), expenses and costs for architects, ENGINEERS, consultants, testing, surveying and attorneys, plus (ii) liquidated or actual damages, whichever may be provided for in the Contract, for lost use of the Project, plus (iii) re-procurement costs and fees and expenses, plus (iv) costs incurred at the direction, request, or as a result of the acts or omissions of the Surety; provided that in no event shall Surety's liability exceed the Penal Sum of this Bond.

4.

5. **SURETY'S WAIVER OF NOTICE.** The Surety waives notice of any Modifications to the Contract, including changes in the Contract Time, the Contract Sum, the amount of liquidated damages, or the work to be performed under the Contract.
6. **NO THIRD-PARTY BENEFICIARIES.** The Surety provides this performance bond for the sole and exclusive benefit of the OWNER and OWNER's heirs, administrators, executors, successors and assigns. No other party, person or entity has any rights against the Surety.
7. **METHOD OF NOTICE.** All notices to the Surety, the Principal or the OWNER must be given by Certified Mail, Return Receipt Requested, to the address set fourth for each party below:
